Commissioner of Finance

December 5, 2008

The attached report represents a consolidation of Reports of Condition filed by state-chartered banks with the Missouri Division of Finance as of September 30, 2008, and a comparison with the statements filed one year earlier.

Also included is a comparison of financial statements of state-chartered and national banks.

During the previous twelve months, the number of state-chartered banks and trust companies decreased by eight to 293. Five banks and one nondeposit trust company merged into out-of-state banks, three banks merged into other Missouri state-chartered banks, and one bank merged into a Missouri national bank. One nondeposit trust company was dissolved. There was one bank failure when Hume Bank was closed on March 7, 2008. There were four new bank charters granted, two of which were issued when national banks converted to a state charter.

Assets in state-chartered banks totaled \$74.8 billion on September 30, 2008, an increase of 11.8 percent from one year earlier. Deposits were \$58.9 billion, up 10.1 percent.

Total loans were \$54.9 billion on September 30, 2008, up 10.4 percent.

The equity capital ratio decreased to 10.36 percent. Primary capital, which includes the allowance for loan and lease losses, was also down, to 11.38 percent. The tangible equity capital ratio was down to 8.85 percent. Despite the ratio declines, Missouri banks continue to maintain a strong overall capital position.

Net income in state banks was down 54.9 percent for the first nine months of 2008. Return on assets among state-chartered banks was 0.42 percent, compared to 1.04 percent for the same period in 2007. The income decline continues to be primarily influenced by a small number of banks. After adjusting out ten banks with the largest losses, the return on assets for the remaining 276 banks was 0.81 percent.
